Agro Processing Cluster

A Food Processing Hub

Basic Infrastructure Utilities

Core Processing facilities

Available plots for food processing industry

Quality controls and consultancy to MSME Units

**Investors are cordially invited for  
setting up food processing units**

## ABOUT US

Govindgreen Foods Infratech (GoFI) is an Agro Processing Cluster (APC) which has been approved by the Ministry of Food Processing Industries (MoFPI), Government of India. An entrepreneurial and innovative approach that targets to overcome systemic gaps in Agro-Infrastructure development so as to facilitate better food processing in the area in which it is located. APC aims to connect all stakeholders from farm to consumer. The project is equipped to support the industry in processing, value addition, post-harvest facilities and technical assistance to farmers and entrepreneurs. Thus delivering marketability of farm produce, creation of high quality food processing infrastructure, reduction in wastage, capacity building of the producers and processors and creation of an efficient supply chain along with significant direct and indirect employment generation.

## VISION

- › Value addition to Agro Products
- › Boost Rural Economy by processing of their produce
- › Quality Controls & Consultancy to MSME units
- › Reduce Production Cost by providing all facilities together at one place

## MISSION

- › To exceed customer expectations in the processing, distribution and marketing of safe, tasty and high quality fruit and vegetable products from farm to plate
- › To base our operation on values, commitment, experience and knowledge of our people, partners and investors

## SERVICES / INFRASTRUCTURE

Agro Processing Cluster offers integrated infrastructure as per MOFPI conforming to guidelines and standards where quality, integrity and commitment to growth blend in perfect harmony.
